Collaboration and Funding

Energy Upgrade™ California in Los Angeles County is administered by an alliance of the County of Los Angeles, Southern California Edison, Southern California Gas Company, Los Angeles Department of Water & Power and the cities of L.A. County

The County of Los Angeles:

A dedicated Office of Sustainability within the Los Angeles County Internal Services Department manages the Energy Upgrade™ California program in Los Angeles County. The L.A. County Internal Services Department provides a range of support services to other County departments in the areas of purchasing, contracting, facilities, information technology, and other support services, such as energy management, parking and mail services.

Southern California Edison:

Southern California Edison is one of the nation's largest electric utilities, serving nearly 14 million people in 15 counties of Central, Coastal and Southern California.

Southern California Gas Company:

It is the nation's largest natural gas utility, providing safe and reliable energy to 20.9 million consumers through 5.8 million meters in more than 500 communities throughout Central and Southern California.

Los Angeles Department of Water & Power:

The Los Angeles Department of Water and Power the largest municipal utility in the nation, delivers reliable, safe water and electricity supplies to some 3.8 million residents and businesses in Los Angeles.

Funding for the Energy Upgrade California program comes from multiple American Reinvestment and Recovery Act sources, including: Los Angeles County's Energy Efficiency and Conservation Block Grant; U.S. Department of Energy's Better Buildings Program funding; and a California Energy Commission discretionary grant.
